MOTOR TRUCK ROUTES
FOR DAVIS HIGHWAY

"We hope in the near future to be able to establish motor vehicle routes on this (the Jefferson Davis) highway, or at least certain portions thereof," states the Hon. J. B. Blackwell, fourth assistant postmaster-general, in a letter to the Chamber of Commerce. Mr. Blackwell's letter was in reply to an invitation to address the meeting of the Jefferson Davis Highway association, which will be held in Memphis on Feb. 27 for the purpose of taking up the question of hard-surfacing the highway from Paducah to New Orleans in order that it may be used as a motor mail truck route. Mr. Blackwell states that he will attend the meeting if his official duties will permit him to do so.

DRUGS EXCITE YOUR
KIDNEYS, USE SALTS

If Your Back Hurts Or Bladder
Bothers, Drink Lots of
Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water; you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium bicarbonate, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in uric acid, and longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, can not injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this. Also keep up the water drinking, and no doubt you will find that because of your kidney trouble and backache.

Q. I know this is rather an unusual question, but although my husband is only 31 he is getting so gray that it handicaps his business success. Is there anything except a dye which will help him?

A. A few months ago I would have been obliged to say "No." Recently, however, I have seen the most marvelous results from a preparation called Q-ban Hair Color Restorer. It not only brings back the natural color and gloss, but removes dandruff. I suggest your husband try it.

UNCLE WIGGILY
BEDTIME STORY

UNCLE WIGGILY AND MR. TWISTYTAIL.

BY HOWARD R. GARIS.

Once upon a time, when Uncle Wiggily longed for the funny rabbit gentleman, waiting for his breakfast lady, bungalow, and a letter from his mother, he called him to dinner, there came a knock at the door.

"Whoever it is, there is just time to have something to eat," said Uncle Wiggily, looking out of the window.

"It's me," said the rabbit gentleman, and then he came in.

"What's the matter with you?" asked Uncle Wiggily.

"I've been thinking of you," said the rabbit gentleman, "and I've been thinking of you."

"What's the matter with you?" asked Uncle Wiggily.

TO DRAN BACK
LANDS IN DELTA

Land Owners of Mississippi
Would Open Channel at
Foot of Bluffs.

Capt. C. B. Vance, of Batesville, Miss., one of the leading citizens of Panola county, and a large land owner not only in the hills but also in the delta, is active in promoting a drainage scheme for the portion of the delta that lies back against the hills.

There is a difference of some 20 feet on an average between the elevation of the land along the river front and that of the hills, which is near where the delta is located.

The river front is higher on account of the rapid deposit of the alluvium when the flood waters first left the channel. The consequence of this topography is that the front lands are low and the back lands are high.

Back lands suffer from the hill water running down from the steep slopes and flattening over the delta.

Capt. Vance and his associates would remedy this trouble by opening a canal along the foot of the hills from about the Yazo, which is near where the delta is located.

The canal would take care of the surplus water in the delta, and the water would be carried to the Gulf of Mexico.

The canal would be a great benefit to the delta, and the water would be carried to the Gulf of Mexico.

TEXAS CONTRACTOR
INDORSES TANLAC

San Antonio Business Man
Suffered for Years—Takes
Tanlac—Troubles Disappear
and He Gains Ten Pounds.

Robert Schultz, of 818 West Poplar street, San Antonio, Tex., a resident of that city for more than fifty years and a contractor and builder there for twenty-five years, made an interesting statement regarding his experiences with Tanlac.

About two years ago," said Mr. Schultz, "I was in the case of some of my relatives. I began using it myself and am now entirely free from all rheumatism and rheumatic pains. I have gained ten pounds and all my energy returned to me. I suffered so terribly that I could not work an hour without my shoulders giving out completely. I was all moping and nothing seemed to do me any good, and I had gotten to the point where I didn't know which way to turn for relief.
